OUTDOOR LIVING MADE SIMPLE

TEMPLAR

SCREENS

YOUR OWN OUTDOOR OASIS

Enjoy the outdoors without all the hassle. Designed from the ground up to solve a myriad of problems, our screens are the perfect addition to your home. Lounge in the fresh air without unbearable heat, keep bugs out, and experience true privacy and peace of mind. With a Templar Screens system, you can experience paradise without ever leaving your home.

Each Templar Screens unit is **made to order**. We understand that there is no room for compromising when it comes to your home; with endless customization options, meticulous fabrication, and expert installations, our screen system is guaranteed to **exceed your expectations**.

ENJOY YOUR OUTDOORS

CUSTOMIZABLE • DURABLE • VERSATILE

With a **max width of 25 feet**, our screens fit effortlessly to even the grandest of homes. Enjoy unobstructed views from your outdoor area while shielding harmful UV rays, pesky insects, and adding privacy to your home. With a Templar Screens system, you can extend the outdoor season and **enjoy your space year long**.

PROTECT YOUR VIEW

Our screens, while excellent at blocking what you don't want, are also a wonderful way to enjoy your scenery. Block the sun, pests, and nosy neighbors, but enjoy your view as if your screen isn't there. Even our privacy and sun protection fabric will maintain a picturesque view from your space. Outdoor living just got easier.

EXPERTLY BUILT

3 sizes fit all. Our standard, micro, or jumbo housing sizes will perfectly fit to your home. The compact design of our system enhances the look of your home. All of the capabilities, **no bulky appearance.**

With dependable motorization from Alpha or Somfy Motors, our remotes deliver **seamless screen management.** Control your screen at the touch of a button with our handheld or wall-mounted options, or **elevate your experience** with sun and wind sensors and a voice controlled smart system.

TO MEET YOUR NEEDS

Not all homes are created equal. We offer a variety of retention and hem bar options that **best fit** your home size and shape.

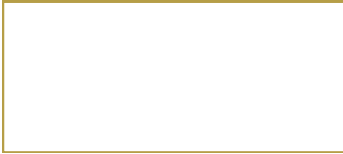

Our screens are **multi-functional**; one of the great attributes of a motorized system is that it can be configured for a specific usage or a combination of many. Our sleek, durable system can be **flawlessly** applied to your home for any application. Whether you're looking for weather protection, bug screens, or privacy, **we've got you covered.**

A photograph of a modern house with a dark exterior and stone pillars. The house has a large patio area with a wooden table and chairs. A screen enclosure is visible, and the patio is furnished with a wooden table and chairs. A potted plant sits on the table. The scene is set during the day with some shadows cast on the patio.

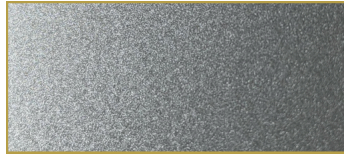

CUSTOMIZE IT

Looking for a **perfect color match**? Look no further—each Templar Screens system can be **completely customized** to your preferences.

FLAWLESS FINISH POWDER COATING

TKS 8018: Olive Green

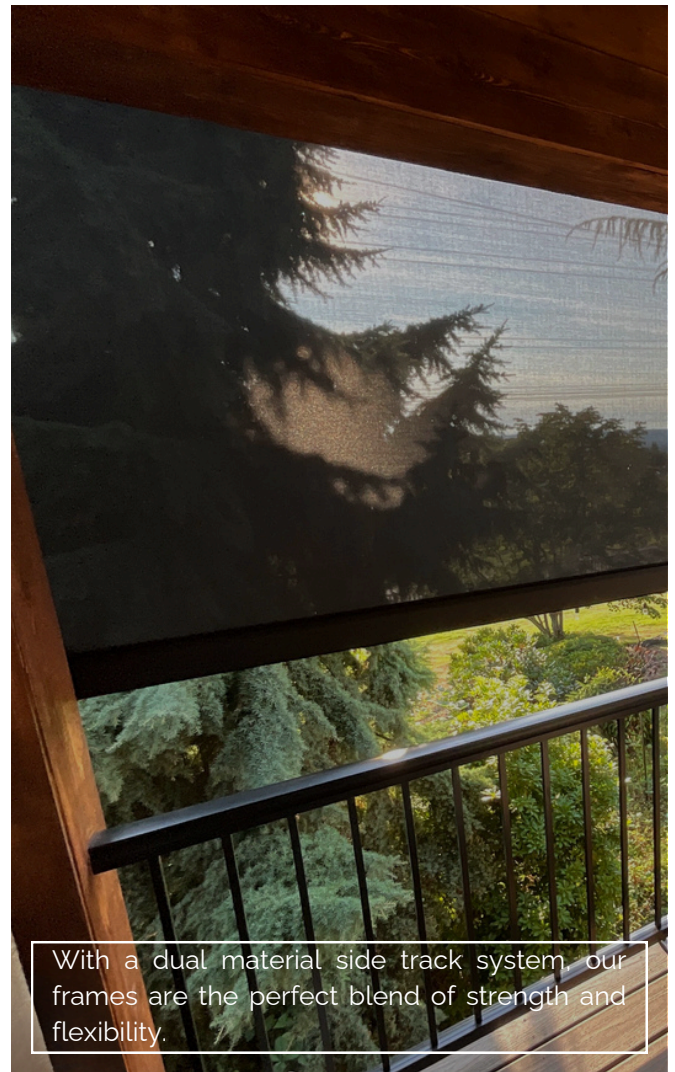

TKS-8003: Mid-Knight Black

TKS-8010: Mid-Knight Black Textured

Choose from our 13 tried and true standard colors in both smooth or textured finishes, or opt for a custom RAL for extra pizzazz and a perfect color match. Naturally UV resistant and made to last, Templar Screens powder coat adds both durability and style to your screen system. For maximum quality control, we perform a crosshatch adhesion test on each unit and give the results to your authorized dealer.

With a dual material side track system, our frames are the perfect blend of strength and flexibility.

Seattle, WA

A VERSATILE SYSTEM

Depending on the fabric, your screen can be configured to solve many different problems. From bug control mesh to high wind protection fabric, **we have the solution** for your home.

FABRIC FOR EVERY OCCASION

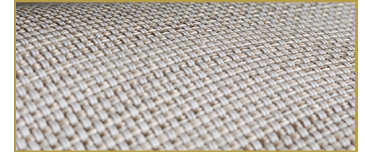

We are proud to offer high-quality fabric from the world's best suppliers. With over 200 options from Twitchell, Serge Ferrari, Mermet, and more, we have a durable fabric that will work perfectly for your needs. Choose a low openness level to let in a breeze and keep bugs away, or opt for a high openness mesh for sun protection and worry-free privacy.

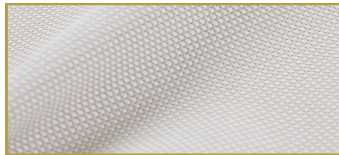

This homeowner wanted heat protection for their patio, so we used **Textilene's 95** line in **Tumbleweed**.
